

Reimagine Your Design Experience

- ▶ Is your team satisfied with your PCB design outsourcing strategy?
- ▶ Are you meeting your demand technology, scheduling and engineering budget requirements?

ADVANCED PCB DESIGN SOLUTIONS

With today's design complexities and intensive interaction requirements, outsourcing PCB layout is no simple task. Don't simply outsource - extend your resources with the Advanced PCB Design Solution from Arisentec.

Services

Complete Design / Layout, Library Management, Routing Services, DFM/DFT, Valor DRC

PCB Expertise

High-Speed Digital, RF / Wireless, HDI, Backplane

Applications

Telecom / Datacom, Medical, Automotive, Industrial, Consumer

- Advanced Design Flow System
- Team - Based Resource Methodology
- Highly Experienced Local Resources
- Instant Resource Scaling
- Leading-Edge Technology
- No Time Zones - True 24/7 Support
- Daily Project Interactions
- Compressed Design Schedules
- Reduced Layer Count
- Minimal Via Use
- Leading EDA Tools Expertise
- 100% Manual Routing
- Complete DFM / DFT / DRC
- Best-in-Class Cost Performance
